### Message from the Guest Editors

Dear Colleagues,

Pulmonary fibrosis is characterized by the excessive deposition of extracellular matrices and destruction of the pulmonary parenchyma. The cause or contributing factor of pulmonary fibrosis is often unknown, and some diseases, including idiopathic pulmonary fibrosis, have poor prognosis despite treatment. Recently, progressive fibrosing interstitial lung disease (PF-ILD) or progressive pulmonary fibrosis (PPF) has been advocated to this phenotype, but there are many uncertainties and problems left to be resolved in the term “PF-ILD or PPF”.

This Special Issue, “Pulmonary Fibrosis: From Pathogenesis to Therapeutics”, aims to focus on novel approaches to the pathogenesis, diagnosis and therapeutics of pulmonary fibrosis at basic to clinical levels.

Prof. Dr. Hiroshi Mukae

Dr. Noriho Sakamoto

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
