Deadline for manuscript
submissions:

closed (31 August 2022)

Message from the Guest Editors

This Special Issue aims at gathering recent advances in the role of affect-related neuropeptides, including neuropeptide Y, oxytocin, corticotropin-releasing factor, orexin, cholecystokinin, calcitonin gene-related peptide, endogenous opioids, and brain-derived neurotrophic factor in the context of reward and aversion.

Contributions addressing neuropeptides' involvement in maladaptive affective states associated with pathological conditions, such as depression, anxiety, addiction, and eating disorders, are also of interest.

As such, neuropeptides hold great promise for the identification of new biomarkers for more effective diagnosis, besides representing exciting candidates for novel therapeutics.

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
