Message from the Guest Editor

Dear colleagues,

Millions of people suffer from various neurodegenerative disorders worldwide, with a substantial rise in the number of new cases each year. Early diagnosis, accurate prognosis, and effective treatment management are needed to increase the quality of life for these patients. Recent technological advancements in proteomics, next-generation sequencing, immunological techniques, mass spectrometry, etc. have yielded significant mechanistic insights into these ailments. This Special Issue will focus on the current advancements of basic and clinical research that would lead to the identification, development, and application of new and improved biological markers for specific neurodegenerative diseases in the future. Both original research and comprehensive review are welcome.

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to Biomedicines, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: — free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Biochemistry & Molecular Biology) / CiteScore - Q2 (Medicine (miscellaneous))
