

## Microbial Ecology in Health and Disease 2.0

Guest Editors:

**Prof. Dr. Eugenia Bezirtzoglou**

Laboratory of Hygiene and  
Environmental Protection 68100-  
Panepistimioupolis, Democritus  
University of Thrace Medical  
School, Alexandroupolis, Greece

**Dr. Elisavet Stavropoulou**

Department of Infectious  
Diseases, CHUV (Centre  
Hospitalier Universitaire  
Vaudois), 1011 Lausanne,  
Switzerland

Deadline for manuscript  
submissions:

**closed (30 November 2022)**

### Message from the Guest Editors

This Special Issue will collect research on the different human microbial ecosystems to illuminate their role in health and disease. This field of research has drawn increased attention in recent years as scientists have helped to advance our knowledge of the normal microbial flora, “the microbiome”, and its role in infection. Nevertheless, the disastrous effects of the different medical or other technical, chemical substances and antibiotics closely related to the alterations of the microbiota are attracting more and more attention.

This Special Issue will consider manuscripts on the different aspects of microbial ecology in health and disease, focusing on the human and animal microbiotas as well as on food and environmental ecosystems, which may be of interest in terms of preserving public health.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
