### Message from the Guest Editors

Dear Colleagues,

This Special Issue “Malignant and Potentially Malignant Disorders of the Oral Cavity: Updates from Pathogenesis to Therapy” will focus on pathophysiology, diagnosis, prognosis and therapy of malignant and potentially malignant disorders of the oral cavity, but not limited to only these aspects.

It is open to both clinical and pre-clinical research, in a multi-disciplinary approach, and covers both original articles and reviews.

Oral conditions and their associations with other systemic malignant and chronic inflammatory diseases will be considered as well.
