Cardiovascular Health in COVID-19: Pathophysiology and Therapeutic Perspective

Message from the Guest Editor

As the COVID-19 pandemic lasts for almost 3 years, millions of people worldwide have been affected. The infection with the SARS-COV-2 virus rises serious healthcare problems aggravated by the not so uncommon long COVID-19 syndrome. Although many experts have tried to determine the mechanism responsible for the associated cardio-vascular alterations, there remain a lot of unknowns. The treatment of cardio-vascular pathologies caused by the SARS-COV-2 infection continues to be very challenging for healthcare professionals around the globe. The scope of this special issue is to publish ground breaking researches on the pathophysiology and new therapeutic approaches in patients with and recovering from COVID-19.

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
