

Special Issue

Advanced Research on Diabetic Retinopathy

Message from the Guest Editor

This Special Issue aims to highlight cutting-edge research into the mechanisms, diagnostics, and therapeutics of diabetic retinopathy. We are calling for high-quality submissions that push the boundaries of diabetic retinopathy research. Diabetic retinopathy is a rapidly evolving and highly active area of research, driven by the global rise in diabetes prevalence and its status as a leading cause of vision loss. With emerging technologies and novel therapeutic targets, the race to prevent and reverse vision loss in diabetes has never been more urgent or promising. This Special Issue will bring together the latest advancements in pathophysiology, biomarkers, imaging, and treatment approaches for diabetic retinopathy.

Guest Editor

Dr. Stamatios Lampsas

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
