

Special Issue

Feature Reviews in Biomaterials for Oral Diseases

Message from the Guest Editor

This Special Issue, "Feature Reviews in Biomaterials for Oral Diseases", will focus on feature reviews of current or emerging materials for permanent or long-term intraoral use. This includes bone graft substitutes as well as materials for dental implants, adhesive restorations, or prostheses. In particular, metal-free materials have huge potential for improvement in terms of biocompatibility, fracture resistance, wear, acid solubility, biofilm attachment, and many other properties. This Special Issue focuses on articles that combine known and new knowledge on biomaterials with oral applications to present the current state of the science and identify the need for further research. We cordially invite authors in the field to submit review articles about this important and fast-progressing field of biomedicine.

Guest Editor

Prof. Dr. Oliver Schierz

Department of Prosthetic Dentistry and Materials Science, University Medicine Rostock, Rostock, Germany

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPLUS / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
