

## Special Issue

# Novel Biomarkers and Precision Medicine in Gynecologic Malignancies

### Message from the Guest Editor

Biomedicines focus on molecular biology and experimental medicine. This Special Issue explores transformative approaches in the management of gynecologic malignancies (ovarian, cervical, and endometrial cancers or other rare malignancies) through precision medicine paradigms. Key focus areas include early detection and screening, biomarker innovations, AI-driven solutions, therapeutic advancements, and potential clinical trial development based on experimental studies. This collection aims to bridge translational research with clinical practice, highlighting strategies to overcome heterogeneity challenges and optimize patient stratification. We hope to illustrate the landscape of current personalized medicine and future development strategies for gynecological cancer treatment.

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
