

Special Issue

Mechanisms and Therapeutic Approaches for Hepatocellular Carcinoma

Message from the Guest Editors

This Special Issue aims to provide a valuable platform for researchers and clinicians to present their latest findings and insights on the molecular mechanisms and novel therapeutic approaches for HCC. We aim to bring together a diverse group of experts in HCC research to provide a comprehensive overview of the current progress, identify promising directions for future research, and contribute to developing effective and personalized therapies for HCC that can ultimately improve patient outcomes. We welcome original research articles, reviews, communications, and perspectives that cover a broad range of topics related to HCC, including but not limited to the following:

- The molecular mechanisms of HCC pathogenesis and progression;
- Biomarkers for early diagnosis and prognosis of HCC;
- Novel therapeutic targets and drugs for HCC treatment;
- Immunotherapy and targeted therapy for HCC;
- Personalized medicine for HCC;
- Pre-clinical and clinical studies on novel therapeutic approaches for HCC.

Guest Editors

Dr. Lanqi Gong

Prof. Dr. Xinyuan Guan

Dr. Yu Zhang

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
