Prostate Cancer: Molecular Imaging and Radionuclide Therapy

Message from the Guest Editor

I am thrilled to announce the upcoming release of a Special Issue in *Biomedicines*, entitled "Prostate Cancer: Molecular Imaging and Radionuclide Therapy." This collection of articles will feature contributions from leading experts in the field of positron emission tomography/computed tomography (PET/CT) and radionuclide therapies for prostate cancer. The rapidly evolving field of theranostics, which combines diagnostic and therapeutic radiopharmaceutical agents, is revolutionizing prostate cancer imaging and paving the way for improved treatment strategies. This Special Issue aims to highlight recent advancements in molecular imaging and radionuclide therapy that have already impacted the management of prostate cancer and those that have the potential to shape the diagnostic and treatment paths of the disease in the near future.

Guest Editor

Dr. Sara Harsini

BC Cancer Research Institute, Vancouver, BC, Canada

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
