Retinal Vascular Disorders: New Insights into Pathogenesis, Diagnosis and Treatment

Message from the Guest Editor

In recent years, there has been great interest in the diagnosis and treatment of diabetic retinopathy, retinal vein occlusion, and other retinal vascular disorders. The introduction of new imaging modalities, the role of artificial intelligence, and the progression in the understanding of retinal vascular diseases have led to new treatment algorithms, further adopting the personalized medicine model. This Special Issue aims to bring together the latest research evidence on the pathogenesis, diagnosis, and treatment of retinal vascular disorders, with more emphasis on diabetic retinopathy and retinal vascular occlusions. We therefore invite high-quality submissions of original research and review articles on these topics.

Guest Editor

Dr. Irini P. Chatziralli

2nd Department of Ophthalmology, National and Kapodistrian
University of Athens, Attikon University Hospital, Athens, Greece

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPUS / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
