

## Special Issue

# Genetic Research of Peripheral Vascular Diseases

### Message from the Guest Editor

Peripheral vascular disease (PAD) developed with arteries limited blood infusion into leg muscles by appending of fatty deposits. To date, the high prevalence of PAD had found in developed countries. Risk factors of PAD were identified as age, sex, body mass index, smoking status, comorbidities including diabetes mellitus and hypertension. However, the inherent or causative role of genetic variations in PAD is essential. The aim of this Special Issue is to collect state-of-art and latest advances progress in methodology involving the genetic and genomic to prevent and improve the prognosis of PAD.

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
