

## Special Issue

# Periodontal Disease and Periodontal Tissue Regeneration

### Message from the Guest Editors

We cordially extend an invitation for you to submit a manuscript for our forthcoming Special Issue on "Periodontal Disease and Periodontal Tissue Regeneration." Advancing our understanding of periodontal tissue regeneration is imperative to enhance the quality of life for patients affected by periodontal diseases. Innovations in periodontal tissue engineering hold the promise of revolutionizing dental healthcare, emphasizing the urgency of ongoing research. All review articles, research articles, and techniques on advanced technologies and methods for periodontal diagnosis and the surgical approach for periodontal tissue regeneration are of interest to this Special Issue. Your contribution to this topic would be greatly appreciated and could potentially provide valuable insights into this area of research. We look forward to receiving your submission and are confident that your work will be of great interest to our readers.

### Guest Editors

Dr. Irina-Georgeta Sufaru

Department of Periodontology, "Grigore T. Popa" University of Medicine and Pharmacy, 16 Universitatii Str., 700115 Iasi, Romania

Prof. Dr. Sorina Mihaela Solomon

Odontology-Periodontology and Fixed Prosthodontics Department, Faculty of Dental Medicine, "Grigore T. Popa" University of Medicine and Pharmacy, 700115 Iasi, Romania

### Deadline for manuscript submissions

closed (31 March 2025)

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
