# Neurodevelopmental Disorders: From Pathophysiology to Novel Therapeutic Approaches—2nd Edition

### Message from the Guest Editors

The DSM-5, introduced in 2013, has allowed for a renewed appreciation of the longitudinal, whole-life perspective of neurodevelopmental disorders in psychiatry, including autism spectrum disorder (ASD) and other communication, speech and language disorders and attention-deficit/hyperactivity disorder (ADHD), intellectual disability (ID), as well as other specific learning disorders. However, our understanding of the basic aspects of the pathophysiology of these disorders and efficient therapies is still incomplete. The adult population suffering from these disorders is especially widely under-researched and rarely benefits from adequate treatments. In this Special Issue of *Biomedicines*, we aim to present the actual state of the art in the understanding of the pathophysiology of neurodevelopmental disorders and their treatments, from birth to the end of life.

## **About the Journal**

#### Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access iournal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to Biomedicines, be it original research, review articles, or developing Special Issues of current key topics.

#### Editor-in-Chief

#### Prof. Dr. Felipe Fregni

- Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
- 2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

#### **Author Benefits**

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
