

Special Issue

Stem Cell Therapy for CNS Disease

Message from the Guest Editor

This Special Issue, “Stem Cell Therapy for CNS Disease”, will mainly focus on studies of stem cells and their derivatives for various brain and spinal diseases. Stem cells, including mesenchymal stromal cells, induced pluripotent cell, embryonic stem cell, and neural stem cells, are expected to ameliorate brain damage or to regain functional recovery of brain and spinal disease. Finding different methodological approaches is one of the most important aims of this Special Issue, as well as to explore experimental approaches for the neuro-regenerative medicine. We cordially invite authors in the field to submit original research or review articles pertaining to this important and fast-progressing field of biomedicine.

Guest Editor

Dr. Masahito Kawabori

Department of Neurosurgery, Hokkaido University, Sapporo, Japan

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
