State-of-the-Art Drug Delivery in the UK

Message from the Guest Editors

In this Special Issue, we solicit the submission of original articles from researchers based in the UK or review articles where the main focus of the article is research carried out in the UK in the field of drug delivery (based on the keywords below).

- nanomedicines
- macromolecule delivery
- 3D printing
- microneedle
- transdermal delivery
- pulmonary delivery
- nasal delivery
- ocular delivery
- brain delivery
- oral delivery
- nanofibers
- novel drug-delivery systems

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.
