

Special Issue

Vitamin K and Vitamin D in Health and Disease

Message from the Guest Editors

The liposoluble vitamins D and K are well known to play roles in multiple processes, from calcium metabolism to immunity, to energy metabolism and cancer prevention. This Special Issue will focus on the role of vitamin D- and K-dependent proteins in diseases associated with metabolic or endocrine disbalances. In addition to providing insights into the vitamin D and K status in healthy subjects and diseases, this Special Issue will pay special attention to the regulatory effects of short-chain fatty acids, as products of the gut microbiota, on serum vitamin K-dependent proteins. Researchers are invited to share their knowledge and expertise regarding their recent research observations in this field. Prof. Dr. Alexandra M. Crăciun

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPUS / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
