

## Special Issue

# Advances in the Treatment of Kidney and Upper Urinary Tract Cancers: Second Edition

### Message from the Guest Editor

Kidney and Upper Tract Urinary Cancers (UTUC) are diseases with an increasing incidence, and the treatment of which are undergoing a continuous process of evolution. A characteristic feature of the picture composing the results of renal cell cancer (RCC) treatment is the significant heterogeneity of patients (including different stages of local advancement, different locations of metastases). Importantly, it is estimated that up to 30% of newly diagnosed RCC cases are patients with disseminated disease at the time of diagnosis. Therefore, predicting the response to modern treatment remains the unmet need of modern urologic oncology. Recent advancements in systematic treatment, i.e., immunotherapy, shed additional light on adjuvant treatment to be implemented in new clinical scenarios, including localized disease. This Special Issue aims to cover novel approaches in the renal and urothelial cancers. We opt for original papers and reviews relating to advances in the treatment of Kidney and Upper Tract Urinary Cancers.

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
