

## Special Issue

# Anticancer Metal-Based Compounds

### Message from the Guest Editor

This Special Issue of *Biomedicines* explores the latest advancements in the field of anticancer metal-based compounds. Metal-based compounds have long been recognized for their potential in cancer treatment due to their diverse chemical properties and unique mechanisms of action. This Special Issue features a collection of original research articles, mini reviews, comprehensive reviews, theoretical studies, and perspectives from leading experts in this field, providing insights into the design, synthesis, characterization, and therapeutic applications of metal-based compounds for cancer treatment. Overall, this Special Issue provides a comprehensive overview of the current state-of-the-art research on anticancer metal-based compounds and highlights their potential as promising candidates for the development of next-generation cancer therapeutics.

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
