# Special Issue

# Advanced Research in Lysosomal Storage Disorders

## Message from the Guest Editors

Lysosomal diseases (LDs) are a group of about 70 hereditary metabolic disorders caused by the inactivation of one of the genes encoding components of lysosomal machinery. LDs are rare diseases (combined incidence of about 1:5500) with mainly recessive inheritance. This Special Issue of *Biomedicines* will showcase novel developments in the field, presenting the state of the art on the screening, diagnosis, pathophysiology, and treatment of lysosomal diseases from all points of view (clinical, biochemical, genomic, and biomarkers) and will highlight questions that need to be addressed in the field.

## Guest Editors

Dr. Francisco J. del Castillo

1. Servicio de Genética, Hospital Universitario Ramón y Cajal - IRYCIS, Madrid, Spain
2. Unit 728, Centro de Investigación Biomédica en Red de Enfermedades Raras (CIBERER), Madrid, Spain

Prof. Dr. Enrique J. Calderón

Departamento de Medicina, Instituto de Biomedicina de Sevilla, CIBERESP, Hospital Universitario Virgen del Rocío, Facultad de Medicina, Universidad de Sevilla, Sevilla, Spain

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to Biomedicines, be it original research, review articles, or developing Special Issues of current key topics.

### Editor-in-Chief

Prof. Dr. Felipe Fregni
1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

### Author Benefits

**High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

**Journal Rank:**

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

**Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
