

## Special Issue

# Primitive Neuroectodermal Tumors

### Message from the Guest Editor

Primitive neuroectodermal tumors (PNET) constitute very rare and aggressive malignancies and often occur in childhood or adolescence. In the literature, the term 'primitive neuroectodermal tumor' is widely used for small, round-cell tumors in the central and sympathetic nervous system and soft tissues. Owing to the paucity of cases arising in various body sites, there are no standard guidelines for the prognosis and management of PNET. This Special Issue of *Biomedicines* focuses on recent advances in the development of therapeutic methods, and experiments on cellular or molecular aspects. We invite authors to submit original research and review articles that focus on PNET. Potential topics include, but are not limited to:

- gastrointestinal neuroectodermal tumors
- peripheral and central primitive neuroectodermal tumors
- primary neuroectodermal tumors of the ovary.

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
