

Special Issue

From Multinodular Goiter to Thyroid Cancer—Diagnosis and Treatment

Message from the Guest Editor

This special issue focuses on the diagnosis and treatment of thyroid disorders, with an emphasis on the transition from multinodular goiter to thyroid cancer. We invite submissions from experts in endocrinology, otolaryngology, and oncology that explore the pathogenesis, diagnostic tools, treatment strategies, and long-term outcomes of these conditions. The goal of this special issue is to deepen our understanding of the relationship between multinodular goiter and thyroid cancer, ultimately aiming to improve patient care and outcomes. The scope of this special issue includes original research papers and comprehensive review articles. Contributions addressing novel diagnostic techniques and innovative therapeutic approaches are particularly encouraged.

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
