

Special Issue

Advances in Aging and Skeletal Diseases

Message from the Guest Editors

This Special Issue will showcase cutting-edge research on skeletal disorders' pathophysiological mechanisms, predictive biomarkers, and preclinical therapeutic strategies, with a particular focus on osteoporosis and bone metastatic cancers. We invite authors to contribute original research articles and comprehensive reviews that advance our understanding in these areas.

The topics of interest include but are not limited to the following:

- Pathophysiological studies related to skeletal diseases;
- Molecular, biochemical, and biomechanical mechanisms involved in skeletal disorders' etiology and progression;
- Identification and validation of biomarkers useful for early diagnosis and/or predictive of prognosis;
- Preclinical research on potential drugs and cell-based therapies for the treatment of skeletal disorders, particularly osteoporosis and bone metastatic cancers.

Guest Editors

Dr. Japneet Kaur

Physiology and Cell Biology, University of Arkansas for Medical Sciences, Little Rock, AR, USA

Dr. Mohamad Alaa Terkawi

Department of Orthopaedic Surgery, Faculty of Medicine and Graduate School of Medicine, Hokkaido University, Sapporo 060-8638, Japan

Deadline for manuscript submissions

closed (31 March 2025)

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
