

## Special Issue

# Novelties in Parathyroid Gland Diseases

### Message from the Guest Editors

Parathyroid gland disorders are particular conditions with an incidence that displays great variability among populations. The imbalance of calcium metabolism due to these pathological conditions can affect the health of many biological systems, such as bone, kidneys, heart, cardiovascular and neurological ones. Despite the medical progress achieved in recent years, there are still many gaps in the knowledge, mainly regarding natural history and the potential chronic complications of these diseases. Therefore, we cordially invite authors and investigators from this complex and fascinating field of interest to submit original research or review articles to this Special Issue. New basic or clinical studies on pathogenesis, diagnosis, and complications of parathyroid gland diseases will be taken into consideration.

### Guest Editors

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPUS / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
