

## Special Issue

# New Technologies in Digestive Endoscopy

### Message from the Guest Editor

Digestive endoscopy is a progressively evolving minimally invasive modality used in virtually all parts of the gastrointestinal tract. Recently, new technologies have been emerging to increase diagnostic and therapeutic yield and potentially improve patient prognosis. This Special Issue aims to provide an overview of some of the new technologies under research or already routinely used during endoscopy procedures. Potential topics for this Special Issue include new imaging modalities, possible applications of artificial intelligence, innovations in histopathological and cytological processing, in vivo tissue analysis technologies, molecular and genomic analysis, advances of endoscopic resection techniques and the evolving role of transluminal and capsule endoscopy.

### Guest Editor

Dr. Přemysl Falt

2nd Internal Department, Gastroenterology and Geriatrics, University Hospital and Faculty of Medicine, Palacký University, Olomouc, Czech Republic

### Deadline for manuscript submissions

closed (31 October 2023)

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

---

### Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPLUS / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
