Pharmacological Targets in Inflammation: Advanced Research

Message from the Guest Editors

The Special Issue "Pharmacological Targets in Inflammation: Advanced Research" focuses on experimental/laboratory medicine aspects of inflammation. It aims to showcase innovative research on mechanisms, pathways, and therapeutic targets in inflammation. We invite original research articles, reviews, and perspectives on the discovery, development, and evaluation of novel pharmacological targets in preclinical models and experimental settings. This Special Issue provides a platform for researchers to share their work, foster collaboration, and contribute to advancing pharmacological targets in inflammation.

Guest Editors

Dr. Po-Jen Chen

Department of Medical Research, E-Da Hospital, Kaohsiung 824410, Taiwan

Dr. Kuei-Hung Lai

Graduate Institute of Pharmacognosy, College of Pharmacy, Taipei Medical University, Taipei, Taiwan

Deadline for manuscript submissions

closed (15 April 2024)

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA

2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.2 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
