

Special Issue

Advances in Cancer Treatment

Message from the Guest Editors

We invite you to contribute to a special issue focused on cutting-edge developments in advanced cancer therapies, emphasizing the role of biomolecules in precision oncology. This issue will explore the design, development, and clinical translation of targeted therapies, including bio-conjugates, nucleic acid-based treatments, and other biologic agents engineered for tumor specificity and therapeutic potency. We welcome original research and reviews that address novel biomolecular platforms, mechanisms of action and resistance, optimization of therapeutic conjugates, translational progress, and biomarker-driven strategies for personalized treatment. This special issue aims to showcase the biomolecular innovations transforming cancer therapy and accelerating the path from laboratory discoveries to clinical application.

Guest Editors

Dr. Vlasios Karageorgos

Department of Pharmacology & Anesthesiology, School of Medicine, University of Crete, Crete, Greece

Prof. Dr. George Liapakis

Department of Pharmacology, School of Medicine, University of Crete, Crete, Greece

Deadline for manuscript submissions

28 February 2026

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPLUS / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
