Neonatal Disease: From Pathophysiology to Current and Emerging Therapeutic Approaches

Message from the Guest Editor

We cordially invite distinguished researchers like yourself to contribute their original research and comprehensive review articles that delve into the recent breakthroughs in understanding the pathophysiology of neonatal diseases. Additionally, we are eager to receive submissions that shed light on innovative therapeutic approaches and their profound impact on the well-being of afflicted children. We also extend an invitation to researchers exploring the molecular mechanisms underpinning pharmacological interventions in neonatal care. We earnestly seek original, high-quality contributions that have not been previously published elsewhere nor are currently under review by other esteemed journals or peer-reviewed conferences. Your expertise and insights will undoubtedly enrich the discourse surrounding neonatal healthcare and ultimately pave the way for improved outcomes in neonatal medicine. We look forward to receiving your valuable contributions and fostering a platform for exchanging knowledge that will undoubtedly shape the future of neonatal care.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
