

Special Issue

Emerging Trends in Gastrointestinal Tract Disease Therapies

Message from the Guest Editors

In an era marked by unparalleled advancements in gastrointestinal (GI) tract disease therapies, this Special Issue is poised to capture and illuminate the significant progress characterizing this vibrant field. Our mission is to highlight the most recent trends, cutting-edge treatments, and transformative research shaping the future of GI disease management. We cordially invite submissions of original research and in-depth reviews. Our focus encompasses:

- Innovative therapeutic approaches—exploration of the latest pharmacological advancements, including biologics, small molecules, gene therapies, and their transformative impact on inflammatory bowel disease and other autoimmune-related GI disorders;
- Endoscopic breakthroughs—advancements in minimally invasive techniques, encompassing endoscopic bariatric therapy, endoscopic anti-reflux therapy, natural orifice transluminal endoscopic surgery, and more, and their efficacy in GI treatment;
- Gut microbiome research—insightful perspectives on the therapeutic roles of gut microbiota in GI diseases, unveiling novel interventions;

Guest Editors

Dr. Puo-Hsien Le

Dr. Jenwei Chou

Dr. Chen-Shuan Chung

Deadline for manuscript submissions

30 November 2025

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPUS / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
