

## Special Issue

# Advances in Genetic Research and Molecular Diagnostics for Hematological Diseases

### Message from the Guest Editors

This Special Issue is dedicated to exploring cutting-edge genetic research in hematological diseases, with a particular emphasis on both malignant and benign disorders, encompassing inherited and acquired conditions. The complex genetic landscape of these diseases poses significant challenges, underscoring the need for innovative technological approaches to advance our understanding and improve therapeutic outcomes. This Special Issue will focus on the practical application of advanced molecular methodologies and digital technologies in clinical settings. By highlighting their effectiveness in enhancing diagnostic accuracy and guiding treatment strategies, the issue aims to foster the integration of genetic insights into personalized medicine, ultimately advancing patient care and management in the context of hematological disorders.

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
