Hypoxia

Message from the Guest Editors

The field of hypoxia research has exploded in recent years as the importance of oxygen-sensing pathways have been implicated in physiology and disease. Much is understood in relation to the hypoxia inducible factors (HIFs) and the hydroxylase enzymes that regulate them. However, there are many areas that remain to be fully elucidated in relation to how hypoxia-dependent signalling cross talks with metabolism, cancer development and progression, inflammation and inflammatory disease. This series of reviews will focus on highlighting new emerging areas within the field of oxygen sensing and signaling, and integrating this knowledge with what is already established in the field.

Guest Editors

Dr. Eoin Cummins

School of Medicine, UCD, Dublin, Ireland

Dr. Carsten C. Scholz

Institute of Physiology, University of Zurich, Zurich, Switzerland

Deadline for manuscript submissions

closed (15 February 2018)

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
