Special Issue

Editor's Choice Series for Medical Statistics and Data Science Section

Message from the Guest Editor

The Editor's Choice Series for Medical Statistics and Data Science Section presents a curated compilation focusing on advanced statistical methodologies and data science applications within the medical domain. This series highlights innovative approaches, analytical tools, and methodologies shaping the landscape of medical research, clinical trials, and healthcare decision making. Encompassing diverse areas such as biostatistics, epidemiology, clinical trial design, predictive modeling, and data-driven healthcare, this series delves into the techniques enhancing evidencebased medicine and driving advancements in healthcare practices. Moving from robust statistical frameworks for clinical studies to predictive analytics aiding personalized healthcare, these articles elucidate the pivotal role of statistics and data science in medical advancements. Please note that this series does not consider brief reports for publication, emphasizing comprehensive studies, methodological analyses, and practical applications within medical statistics and data science.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *BioMedInformatics* (ISSN 2673-7426).

BioMedInformatics is an international, multidisciplinary, peer-reviewed and scientific open access, open source journal that encourages authors to submit high-quality original research papers and in all areas of biomedical informatics, as well as computational biology and medicine. Systematic Reviews will also be considered for publication. BioMedInformatics is published quarterly online by MDPI. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Alexandre G. De Brevern

Department of Biological Research on the Red Blood Cells, INTS, INSERM UMR_S 1134, Université de Paris, Université de la Réunion, 75739 Paris. France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 5.3 days (median values for papers published in this journal in the first half of 2025).
