

## Special Issue

# Feature Papers on Methods in Biomedical Informatics

### Message from the Guest Editor

The Special Issue on Methods in Biomedical Informatics provides an insightful exploration into cutting-edge techniques shaping the intersection of healthcare and technology. This collection of Feature Papers delves deep into innovative methodologies driving advancements in the field of biomedical informatics. Authors present rigorous research and novel approaches, elucidating diverse aspects of data analysis, artificial intelligence, and computational modeling in healthcare applications. From precision medicine to healthcare analytics, the papers offer a comprehensive overview of the current landscape, highlighting the pivotal role of informatics in revolutionizing healthcare delivery. This Special Issue serves as a valuable resource for researchers, practitioners, and policymakers striving to harness the power of informatics for enhancing healthcare outcomes and decision-making processes.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *BioMedInformatics* (ISSN 2673-7426).

*BioMedInformatics* is an international, multidisciplinary, peer-reviewed and scientific open access, open source journal that encourages authors to submit high-quality original research papers and in all areas of biomedical informatics, as well as computational biology and medicine. Systematic Reviews will also be considered for publication. *BioMedInformatics* is published quarterly online by MDPI. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, EBSCO, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 5.3 days (median values for papers published in this journal in the first half of 2025).
