

## Special Issue

# Editor-in-Chief's Choices in Biomedical Informatics

### Message from the Guest Editor

The Editor-in-Chief's Choice in Biomedical Informatics is an esteemed anthology, meticulously curated to highlight the forefront of transformative methodologies in the convergence of biomedical sciences and informatics. Spanning bioinformatics, computational biology, medical imaging analysis, artificial intelligence, and machine learning, this seminal Issue embodies the intellectual rigor and visionary insights driving informatics in healthcare. Each article serves as a testament to scholarly depth, exploring intricate algorithmic frameworks and groundbreaking applications fostering precision medicine, clinical decision support systems, and predictive healthcare analytics. Please note, this exclusive collection does not entertain submissions for brief reports. Instead, it presents comprehensive studies and visionary analyses, transcending traditional boundaries and illuminating the pivotal role of informatics in advancing biological understanding, with the goal of transforming healthcare and inspiring process at novel scientific frontiers.

### Guest Editor

Dr. Alexandre G. De Brevérn

Department of Biological Research on the Red Blood Cells, INTS, INSERM UMR\_S 1134, Université de Paris, Université de la Réunion, 75739 Paris, France

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *BioMedInformatics* (ISSN 2673-7426).

*BioMedInformatics* is an international, multidisciplinary, peer-reviewed and scientific open access, open source journal that encourages authors to submit high-quality original research papers and in all areas of biomedical informatics, as well as computational biology and medicine. Systematic Reviews will also be considered for publication. *BioMedInformatics* is published quarterly online by MDPI. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, EBSCO, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 5.3 days (median values for papers published in this journal in the first half of 2025).
