Special Issue

Advances in Biogenic and Biomimetic Materials: From Bionanomedicine to Environmental Applications and Beyond: 2nd Edition

Message from the Guest Editors

Nature has inspired people throughout history. Scientists have learned from nature and developed new models and strategies to overcome many issues related to environmental pollution, health problems, energy resources, etc. At present, biomimetics and bioinspiration are of particular interest to scientists. Moreover, living systems have been used as a source of inspiration or as raw matter from which to develop valuable materials that can be used in various applications, from bionanomedicine to the environment and beyond. This Special Issue invites authors to contribute original research articles and review papers related to biomimetics and bioinspiration in the biomedical field and their environmental applications.

Guest Editors

Dr. Marcela-Elisabeta Barbinta-Patrascu

Dr. Irina Negut

Dr. Bogdan Bită

Deadline for manuscript submissions

31 December 2025

an Open Access Journal by MDPI

Impact Factor 3.9 CiteScore 4.2 Indexed in PubMed

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Stanislav N. Gorb

Department of Functional Morphology and Biomechanics, Zoological Institute, Kiel University, 24118 Kiel, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q2 (Biomedical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
