Dentistry and Craniofacial District: The Role of Biomimetics—Second Edition

Message from the Guest Editor

We are pleased to announce a new Special Issue titled “Dentistry and Craniofacial District: The Role of Biomimetics—Second Edition”. New technologies, such as digital devices, are available to enhance the effectiveness of diagnosis and treatment in dentistry and in the entire craniofacial district in the field of biomimetic design, constructions, devices, and operations. The application of new biomaterials and techniques can lead to a significant advance in all the main dental branches, such as restorative dentistry, prosthodontics, oral surgery, implantology, pediatric dentistry, orthodontics, and temporomandibular disorder patients. Authors conducting studies on these themes are welcome to submit original research articles, reviews, short communications, case series, and case reports to this Special Issue.

Guest Editor

Dr. Nefeli Lagopati

School of Health Sciences, Department of Medicine, National and Kapodistrian University of Athens, 11527 Athens, Greece

Deadline for manuscript submissions

closed (25 July 2024)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Stanislav N. Gorb

Department of Functional Morphology and Biomechanics, Zoological
Institute, Kiel University, 24118 Kiel, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q2
(Biomedical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
