

## Special Issue

# Biomimetic Nanotechnology

### Message from the Guest Editor

Biological materials, structures and processes are predominantly based on functionalities at the nanoscale. These nanoscale functionalities are often peppered with added components embedded in beautiful hierarchical layers moving from the micro-, through the meso- and finally to the macroscale. Both smart approaches and a focus on properly identifying the underlying principles in nature are necessary for us to be able to transfer lessons from living systems to technology, science, engineering and the arts. The aim of this Special Issue is to provide a forum and a survey for the most recent advances in the field of biomimetic nanotechnology, addressing challenges in modern engineering applications, with a focus on safe nanotechnology and sustainable biomimetic nanotechnology; covering topics from biologically inspired hierarchical materials, tuneable materials with nanoscale functionalities, nanocomposites, nanoparticles, nanosensors, and green nanotechnology for biomedical, environmental, industrial, and energy applications. Prof. Dipl.-Ing.

---

### Guest Editor

Dr. Ille C. Gebeshuber

Institute of Applied Physics (IAP), Vienna University of Technology (TU Wien), Wiedner Hauptstrasse 8-10/134, 1040 Vienna, Austria

---

### Deadline for manuscript submissions

closed (30 June 2018)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Stanislav N. Gorb

Department of Functional Morphology and Biomechanics, Zoological  
Institute, Kiel University, 24118 Kiel, Germany

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,  
PMC, Ei Compendex, CAPlus / SciFinder, and other  
databases.

##### Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q2  
(Biomedical Engineering)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 17.1 days after  
submission; acceptance to publication is undertaken in 2.8  
days (median values for papers published in this journal in  
the first half of 2025).
