

## Early Adversity and the Immune Hypothesis: Call for a Dialogue between Basic and Clinical Neuroscience

Guest Editors:

**Dr. Arie Kaffman**

**Dr. Kate Ryan Kuhlman**

**Dr. Bridget L. Callaghan**

**Dr. Christine Heim**

Deadline for manuscript  
submissions:

**30 June 2024**

### Message from the Guest Editors

A growing body of work has implicated the immune system in mediating key developmental, cognitive, and behavioral outcomes associated with early adversity. In this Special Issue, we seek input from preclinical and clinical researchers to assess current progress, challenges, and unresolved questions. Topics of particular interest include ways to improve cross talk between preclinical and clinical studies, the unbiased search for peripheral and central immune mediators (beyond cytokines), advantages and limitations of current animal models, the gut microbiome and brain–blood barrier dysregulation as potential key players, sex differences, imaging microglial activity and neuroinflammation, and therapeutic implications.

an Open Access Journal by MDPI

## Editors-in-Chief

### **Prof. Dr. Peter E. Nielsen**

Department of Cellular and  
Molecular Medicine, Faculty of  
Health and Medical Sciences,  
University of Copenhagen,  
Blegdamsvej 3C, DK-2200  
Copenhagen, Denmark

### **Prof. Dr. Lukasz Kurgan**

Department of Computer  
Science, Virginia Commonwealth  
University, Richmond, VA 23284,  
USA

## Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Biochemistry*)
