Selected Papers from Bio.Natural Meeting 2019

Message from the Guest Editors

Dear Colleagues,

Bio.Natural Meeting (Bioactive Natural Products Research Meeting) aims to be a forum for researchers who are developing projects exploring the multiple applications offered by natural products. These compounds are being screened as new ‘drug leads’ on drug discovery or being modified via rational drug design and semi-synthesis, in order to offer innovative therapeutic alternatives for the treatment of cancer, infectious diseases or other health problems.

In this Special Issue of *Biomolecules* called “Selected Papers from Bio.Natural 2019”, we would like to emphasize the high value of natural products, particularly in the scientific topics of the Bio.Natural Meeting: Natural products in drug discovery; natural products chemistry; bioactivity of natural products; marine natural products; cosmetics; functional foods and food supplements, and other fields related to natural products.

Dr. Patrícia Rijo
Dr. Isabel Ferreira
*Guest Editors*

Deadline for manuscript submissions: 29 February 2020

Message from the Editor-in-Chief

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
