Prof. Dr. Peter Kubatka

European Association for Predictive, Preventive and Personalised Medicine, EPMA, 1160 Brussels, Belgium

Deadline for manuscript submissions:

closed (31 December 2023)

Message from the Guest Editors

Dear Colleagues,

As a follow up of our successful Special Issue, entitled "Plant-Derived Natural Compounds in the Management of Cancer: Significance and Challenges", this special issue focuses on the potential and efficacy of naturally derived substances (phytochemicals) and their structural analogs in preventing different cancers and in cancer therapy. We invite original research articles and reviews phytochemicals and structural analogs in cancer chemoprevention and therapeutics. The topics include, but are not limited to: (1) novel strategies for the extraction, (2) purification and characterization of natural compounds anticancer activity; (3) novel methodological approaches enhance the bioavailability phytochemicals; (4) in-vitro- and in-vivo-based cancer models that evaluate various therapeutic targets of phytochemicals on various aspects of cancer treatment; and (5) clinical investigations into the role of the phytochemical/derivatives on cancer risk, treatment, and survival. Please note that manuscripts on crude extracts without identified active ingredients are not encouraged and cannot be considered for publication as per journal policy.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Biochemistry*)
