Message from the Guest Editors

Dear Colleagues,

This Special Issue will focus on recent discoveries regarding the role of histamine and its different pathophysiological responses.

This Special Issue of *Biomolecules* will address the current topics in the study of histamine receptor ligands in basic and clinical research to drive the development of new therapeutic molecules.

Prof. Emanuela Masini

Dr. Laura Lucarini

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
