

## Feature Papers in Molecular Structure and Dynamics

### Collection Editors:

**Prof. Dr. Steven R. Van Doren**

Department of Biochemistry,  
University of Missouri-Columbia,  
Columbia, SC 29501, USA

**Prof. Dr. C. Martin Lawrence**

Department of Chemistry and  
Biochemistry, Montana State  
University, Bozeman, MT 59715,  
USA

### Message from the Collection Editors

This Topical Collection, “Feature Papers in Molecular Structure and Dynamics”, will bring together high-quality research articles, review articles, and communications on all aspects of molecular structure and dynamics. It is dedicated to diverse recent advances in biological structure, dynamics, interactions, and expression research, as highlighted in the topics below, and comprises a selection of exclusive papers from the Editorial Board Members (EBMs) of the Molecular Structure and Dynamics Section as well as invited papers from relevant experts. We also welcome established experts in the field to make contributions to this Topical Collection. This collection of articles adopts the view that biomolecular mechanisms depend on structure, function, and dynamics. This collection welcomes novel experimental insights as well as computational works. Any results from simulations should be placed in an experimental context and compared with experimental results. Please note that all invited papers will be published online once accepted. We aim to represent our Section as an attractive open-access publishing platform for biomolecular structure and dynamics research.

an Open Access Journal by MDPI

## Editors-in-Chief

### **Prof. Dr. Peter E. Nielsen**

Department of Cellular and  
Molecular Medicine, Faculty of  
Health and Medical Sciences,  
University of Copenhagen,  
Blegdamsvej 3C, DK-2200  
Copenhagen, Denmark

### **Prof. Dr. Lukasz Kurgan**

Department of Computer  
Science, Virginia Commonwealth  
University, Richmond, VA 23284,  
USA

## Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Biochemistry*)
