

## Special Issue

# Biomolecules and Materials from Agro-Industrial Wastes, 2nd Edition

### Message from the Guest Editor

Green and sustainable chemistry is a very hot topic for those who study biomass all over the world. Biomass-based resources are being increasingly seen, from a biorefinery perspective, to be required to utilise each plant part, rather than to be grown for a single purpose. Extracting bioactive, functional, or energy-dense molecules from the residues of agricultural processes allows for the increased sustainability of the supply chain and enhances the bioeconomy. This Special Issue aims to collect original papers and/or review papers dealing with complementary and alternative approaches to the study of molecules and materials from biomass, as well as their applications in several fields, from bioenergy to green extraction methodologies.

### Guest Editor

Prof. Dr. Valdir Florencio Da Veiga Junior

Chemistry Department, Instituto Militar de Engenharia, Rio de Janeiro  
22250-060, Brazil

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

---

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
