

## Special Issue

# Advanced Organometallic Syntheses for Biomedical Applications

### Message from the Guest Editor

In recent decades, organometallic chemistry has emerged as a powerful tool in developing innovative materials and compounds with diverse applications in various sectors, including biomedical sciences.

“Advanced Organometallic Syntheses for Biomedical Applications” represents a cutting-edge interdisciplinary area that leverages the unique properties of organometallic complexes for the design and fabrication of novel therapeutic agents, diagnostic tools, and drug delivery systems. By integrating the principles of synthetic chemistry, molecular biology, and materials science, researchers are exploring the potential of organometallic compounds to address complex challenges in disease treatment, imaging, and targeted therapy. This Special Issue of *Biomolecules* aims to explore fundamental concepts and recent applications that describe the transformative potential of organometallic chemistry in revolutionizing healthcare.

### Guest Editor

Dr. Bala Krishna Moku

Verna and Marrs McLean Department of Biochemistry and Molecular Pharmacology, Baylor College of Medicine, Houston, TX 77030, USA

### Deadline for manuscript submissions

closed (30 September 2024)

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
