

Special Issue

Bioinformatics in Protein Evolution

Message from the Guest Editors

The post-genomic era led to a huge and continuously increasing number of entries in protein databases. This, coupled with technologies allowing unprecedented annotation quality, provide the means to understand the evolution of protein families which are currently poorly described. For this Special Issue, we recruit manuscripts integrating bioinformatic analysis and discussing proteins' evolution, either as a process or focused on specific motifs/domains. The use of data from multiple species or strains is highly recommended. We will discuss the multiple faces of molecular evolution, from sequences to structures to functions, leveraging on the recent developments in protein features prediction and system biology.

Guest Editors

Dr. Pablo Mier

Faculty of Biology, Institute of Organismic and Molecular Evolution, Johannes Gutenberg University Mainz, 55128 Mainz, Germany

Dr. Lisanna Paladin

Structural and Computational Biology Unit, European Molecular Biology Laboratory (EMBL), 69117 Heidelberg, Germany

Deadline for manuscript submissions

closed (15 December 2023)

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
