

## Special Issue

# Molecular Profiling and Identification of Molecular Signatures Associated with Natural Products

### Message from the Guest Editor

Natural products (NP) are a good resource for health problems around the world, and they have been widely investigated for use on humans and animals. Because NPs have been applied for a long time, they have been linked with functional disorders and the progression of diseases. However, numerous areas have not been studied, particularly their molecular mechanisms. Therefore, this Special Issue aims to present a collection of articles focused on the in vivo and in vitro molecular mechanisms and effects of NPs. Recently, important molecules and/or signaling events in NPs have been discovered. The repurposing of NP is a popular topic. It is important to assess the significance of these molecules in the mechanisms of NPs. You are most welcome to share NP findings that have been obtained in your lab using reliable animal models and/or the established cell models. Moreover, considering the health merits of modern therapies, this Special Issue will cover a wide variety of areas, including the repurposing of well-known molecules, with the aim of developing useful agents and/or biomolecules from NPs for clinical therapy.

### Guest Editor

Prof. Dr. Juei-Tang Cheng

Department of Medical Research, Chi-Mei Medical Center, Tainan City 71004, Taiwan

### Deadline for manuscript submissions

closed (31 May 2025)

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
