

Special Issue

Recent Molecular Research on Protein Structure and Function

Message from the Guest Editor

We are pleased to invite you to submit your original research and review articles for a Special Issue of *Biomolecules* titled 'Recent Molecular Research on Protein Structure and Function'. Proteins are central to virtually all cellular processes, and understanding their structure and function is crucial for advancing our knowledge in molecular biology, biotechnology, and medicine. This Special Issue aims to bring together the latest research on the molecular mechanisms underlying protein structure, function, and interactions. We encourage submissions that explore the dynamic relationship between protein architecture and its functional roles in diverse biological contexts. This includes both experimental and computational studies that investigate how protein structures contribute to their biological activities, as well as the development of new technologies for probing these relationships. We look forward to receiving your contributions and to the opportunity to showcase cutting-edge research in the field of protein structure and function.

Guest Editor

Dr. Sonani Ravi Raghav

Department of Biochemistry and Molecular Genetics, University of Virginia, Charlottesville, VA 22903, USA

Deadline for manuscript submissions

15 December 2026

About the Journal

Message from the Editor-in-Chief

Biomolecules

(<https://www.mdpi.com/journal/biomolecules>) is an international, peer-reviewed, open access journal focusing on biogenic substances, and published online by MDPI. *Biomolecules* is indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, and CAPIus / SciFinder. The Impact Factor (2024) is 4.8, ranking 75/319 (Q1) in “Biochemistry & Molecular Biology”.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
