Biomolecule Contributors to Long COVID Syndrome

Message from the Guest Editor

Long COVID-19 syndrome is a new multiorgan manifestation of SARS-CoV-2 infection, with a prolonged post-viral phase lasting over months or even years in many patients. Depending on the SARS-CoV-2 variants, the prevalence of long COVID-19 syndrome ranges from 3% (newest omicron variant) to 37% (early alpha and beta variants), resulting in an unexpected huge socioeconomic and health burden worldwide.

In this Special Issue of *Biomolecules* called “Biomolecule Contributors to Long COVID-19 Syndrome”, we invite original research articles or reviews reporting significant diagnostic or prognostic biomolecules, which are related to this new multiorgan disease and in association with the patient clinical presentation.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
