

## Special Issue

# Advancing Molecular Regulation in Brain Injury Research: Mechanisms, Diagnosis, and Rehabilitation

### Message from the Guest Editors

This Special Issue aims to explore the latest research findings in the pathophysiology of brain injury, biomarkers of diagnosis and prognosis, novel drug targets and translational approaches, as well as state-of-the-art reviews to drive advancements in molecular regulation of brain injury pathogenesis to facilitate the early diagnosis and clinical management of brain injury. Research areas may include (but are not limited to) the following:

- Understand the cellular and molecular pathological responses instrumental to brain injury.
- Identify novel biomarkers and imaging techniques for diagnosis and prognosis to brain injury.
- Discover therapeutic targets for the prevention and treatment of brain injury.
- Develop strategies of rehabilitation for the recovery of patients.

### Guest Editors

Dr. Guanglin Zhang

Department of Integrative Biology and Physiology, University of California, Los Angeles, CA, USA

Dr. Pavan Thapak

Department of Neurosurgery and Integrative Biology and Physiology, UCLA BIRC, University of California, Los Angeles, CA, USA

### Deadline for manuscript submissions

28 February 2026

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

---

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
